Dual Representation. The wisdom of dual representation has been generally admitted by the press and people of this Province without any promptings from outside sources. The leaders of the Government in the Cabi- LOWEST POSSIBLE PRICE FOR CASH. net are also in favor of the principle. Besides that it is absolutely necessary in order to made the alliance between the Provincial and Federal Governments atrong and lasting. If any proof of this last observation be necessary, it will be found in the determined opposition of the Provincial Government of Nova Scotia to the Federal Administration. Before the union of the Province in 1867, the Nova Scotia Government, led by Mr. Tupper, passed an Act disqualifying any member of the House of Commons of Senate from sitting in the Local Logislature. Subsequently the Repeal party, led by Mr. Howe, raised such a cry against Confederation that they elected at the elections in 1867 all but two or thereabouts of the members to the Local Legislature. That party then entered upon a crusade against the Federal Govexpedient to break up the union. Their success at the polls was made the more certain by nearly all the leading Coufederates who formerly beld seats in the Provincial Assembly standing for the House of Commons, thus g ving way to less influential men to fill their places in the Local Legislature. If the principle of dual representation had been acknowledged and retained in Nova Scotia, and had such men as Dr. Tupper and Mr.

THE STEAMER - SIR JAMES DOUGLAS,
owing to a defect in her rudder, will be unable to be beld seats there—and their election sail until Friday morning at 7 a. m., for Nanaimo as Howe held seats there-and their election to the Local in 1867 would have been certain-there cannot be a doubt but much of the extreme hostility of the Nova Scotia Government to Confederation would have been avoided, and the Local Administration would have been brought much more quickly to act in harmony with the Central Government. Even Mr. Howe, after he abaudoned the Repeal movement, found his influence to be almost nil with his former political friends in the Local. We can imagine, however, how very different would have been the result, had Messrs Howe and Tupper and some other leading men beld seats there. The consequence of the mistake of the Nova Scotians in prohibiting dual representation has been to keep alive a spirit of alienation and hostility to the Federal Government,-and if possible to separate the Province from the rest of the Dominion. The Nova Scotia repeal question has been one of the most difficult that Sir John A. Macdonald's Ministry has bad to solve; and it ough to teach British Columbia a good practical lesson in Dominion politics, -and that is, that in the outstart of the Do- STOVES, IIN & IRONWARE minion, we require a strong central government, one that can make its power and influence felt in all the subordinate governments from the centre to the cirthe Confederacy. The great work of consolidating all British America into one homogeneous whole can only be successfully executed by adopting such expedients as will bring the Provincial governments into harmonious working with the central. To insure that end, dual representation answers admissibly. Take, for instance, the Province of Quebec. In its Local Assembly we find the Hon. Mr. Langevin and Sir Geo. E. Cartier, and we think one or two others on the Government side. On the other hand we find the Hon. Mr. Dorion and the Hon. Mr. Holton on the Opposition side. Yet each of these gen-tlemen hold seats in the House of Commens. In Ontario Mr. McKenzie and Mr. Blake, the leaders of the Ontario Opposition in the House of Commons, sit in the Local Assembly, whilst Mr. Sandfield McDonald. Premier and Attorney General of the Local Government, holds a seat in the House of Commons. Strange to say that Mr. McKenzie, who took a leading part in opposing dual representation, after being one session absent from the Local House, sought a dual position. During the debates in the last session of the House of Commons, it was admitted by Dr. Tupper that a great mistake was made in Nova Scotia and New Brunswick, when they prohibited dual repre-sentation before it was tried and seen how it would work. It would be an equally great mistake here. Our people and our public men are, comparatively speaking, ignorant of the politics, parties, and public men in the Atlantic Proties, and public men in the Atlantic Proties and P ment party and an Opposition, that the first labored to admit us, that the last opposed our admission; and that we think it is our ieterest to support the party who helped us. The local press may do something to familiarize our people with the political parties, the public men, and the political questions that prevail in the Atlantic Provinces; but even our newspaper writers are not too well posted on Dominion politics. Our people then have to be educated up to a thorough knowledge of men and parties on the Atlantic side, so as to act intelligently on all the great questions that may arise in Dominional politics. To get proper teachers, we will send nine gen-tlemen to the Ottawa Parliament. Now Markets; their present Stock was personally Selected in these markets by A. McLEAN. They offer them the more of these gentlemen who can sit in the Local Legislature, the sooner will the country complete its political educa-tion; the easier will it be for such mem-AT WHOLESALE PRICES FOR CASH bers to gather the opinion of this Province and communicate it accurately to the Commons, and to transmit the views that prevail in the Dominion Parliament to the Local, and thus bring the Provincial Administration into proper relations with the Central Government. Our remotenees from the centre makes dual representation more advisable than if we were nearer, whilst its disadvantages can

only be determined after it has been thor-

Mr. Disraeli attended a dinner at his country residence and home. In proposing the tonst of the health of Her Majesty the Queen, he took occasion to assure his friends and

his resignation as a member of the Municipa! neighbors that the sovereign lady has become charch, denounced the sale of livings in Council, on yesterday morning. The Colonist's physically, and is morally, incapacitated from performing her public duties longer. This assection was accomplished by sen-tences of fervent eulogy of Her M-jesty per-

sonally, concluding with the words that lishman is under such complete control of the political traditions of the country as its sovereign. His words have been published. The utterance has produced the most tremendous -xcitement among the people. It is canvassed by the highest of the aristocracy, and talked

of among the most humble of the democracy.

Distarli has overshadowed Gladstone almost completely in the eyes of the people, Mr. J. T. To the Requisitionists and Electors of Esquimalt, including Metchosin, cooks and Highland. ing Metchosis, Sooke and Highland.

Gentlemen, — After considerable hesitation, arising from causes which I can easily and I trust satisfactorily explain when the proper time arrives, I unreservedity place inyself in your hands as a candidate for your suifages at the approaching election.

It is satisfactory to know that great unanmity prevails in the various sections of the colony upon the extension and in provenient of hoads and Bridges; upon mail and telegraphic communication, as well as upon education and retrenchment, and I yield to n no in an earnest desire to see all those accomplished to their fullest extent and upon their respective merits.

As a commercial man I will do nothing to retard, but everything to rursher our maritime interests and free intercourse with our American neighbors and the outer word, and as one who in early life had a deep interest and profited lar, ely by the fisheries of New foundland and the trade of the ext Lawrence; it will be my endeavor to encaurage as much as possible for this coast and our harbour those branches of industry which have flourished so long on the coast of the Atl Inte.

bors those branches of industry which have flourished so long on the co.st of the Atl htic.

My early experience as a member of the M rasy Harbor Board, or the Od Bock Committee of Liverpool, and and as a member of the Pilot's Committee, the Ship Building Committee, the Observatory and Lloyd's Chassification Committee, ought to be of some service in the consisteration of our harbor approaches, buoys and bescoms. beacons.

As a prominent member of the Paid Offic vs Committee appointed by the Liverpool Corporation for the consideration of salaries and duties performed by several hundred officers, and invoving an expenditure of over one milition collars per annum. I may be trusted with the consideration of our Civil List Bill and the exercise of that power which one act of Parliament can exercise over another.

the consideration of our Civil List Bill and the exercise of that power which one act of Parliament can exercise over another.

In the framing of the "Qualification of Voters" Act., I had no more to do than I had with the "Road Act," which the "lical Estate Act" and the "Locacation Act," which the "lical Estate Act" and the "Locacation Act," which proved to be as delective as they were inoperative. But the principles and the technicalities which ought to constitute the spirit must be rigidly adhered to by these who profess to have respect for law.

It is well known that when I selected I sequimalt as a residence I considered it the key of the colony, and I think so sill. I may not be able to bring the Graving Dock or the Rallway to my own door, but I may be instrumental in bringing one or both of them to some of yours without the alst or cost of a dredger.

It was not difficult to persuade some of my friends when I was in England to try the experiment which bringht steamers from Englane, and although the success was not equal to expectation. I hope the day is not far distant when steamers of greater pretensions than the kobert Lowe or W. S. Lindsay will entire the wharves of Esquimalt harbor.

The farmers are not clamorous—to their honor be it spoken—for Governmat aid for special benefit.

The Tariff which only came into operation a few years ago was the emanation of your most astute statesmen, who considered free port had run its day.

The revenue previously derived from Real Estate or a land tax, was to be provided by a tariff which included a duty on foreign grain. There can be no denying but that it has worked for the benefit of the farmers and industrious classes, and injured no one but those who can take care of themselves.

The diffiquence between the Canadian Tariff and our on flour at five cents are

trious classes, and injured no one but those who can take care of themselves.

The diffesence between the Canadian Tariff and our own lise as between heef and bread. Allowing a pound of flour at five cents and a pound of beef at twenty cents per day for each inana, saving of a cent duty upon flour to lay it won beef faskes no difference to the consumer but a very great difference to the producer. Let those try to catch votes who can by the idea of a modified tariff on a sliding scale. In less than ten years I believe the Dominion tariff will be altered and universally adopted, but in the meantime let us try to profit by our own as long as we may.

The clearing and cultivation of the fand give employment to the industrious classes and wherever your corn is produced thither must your plowinan and your reaper your shovel and your capital go.

One herdsman and a narrow trail are sufficient for many hoofs, but it requires the handicraft to make a mill and industrious hands to keep it going.

And while I am aware that many other important and debatable questions will soon be brought forward, I can see no necessity for hoisting party colors and wiil follow no uncertain sound. I have no confidence in those who anticipate the day when the gross delusions of Communists will prevail. I am for building up and not for spoil and therefore have no plunder to offer. I will favor no monopoly, but encourage every individual and private enterprise with a hearty and healthy cooperation of every interest for the general good, and on these principles I am prepared to stand or fail.

If called upon to serve you.I will do it disinterestedly and faithfully. With unbeigned thanks for the requisition that is before me.

I have the honor to be.
